June 12 - July 18

[The 2nd time residency at the ACOSS](#)

...In 2010 I became involved in the history of Armenia's culture, art, architecture. In addition to an exhibit about the cave paintings, done in a red color with abstract images, in oil on canvas, 5 large canvases, I also explored various portions of the countryside making youtube movies. This year I'd like to continue a project I've thought about since then, giving Armenian women wings. I'd like to do this in a literal and abstract way.
