 The 3rd time in residence at the ACOSS   ...In 2010 I became involved in the history of Armenia&#65533;s culture, art, architecture. In addition to an exhibit about the cave paintings, done in a red color with abstract images, in oil on canvas, 5 large canvases, I also explored various portions of the countryside making youtube movies. This year I&#65533;d like to continue a project I&#65533;ve thought about since then, giving Armenian women wings. I&#65533;d like to do this in a literal and abstract way.   www.artlindakanderson.com
